

Hello there!

This is a very uncertain time for all of us and we know that some of you will be getting anxious about how you will cope.

Residents are helping others who are self-isolating, checking in with neighbours that they're ok, and aiding with:

- shopping
- phone support
- posting
- urgent supplies and medication

Your local Community Groups and Ward Councillors are here to help. Please contact your councillors if you are not receiving the support that you need or you think something is missing, and we'll do our best

to help link you in with the right people. We'd also like to know what/where support is happening, so please get in touch so we can link up wider support.

Manchester City Council is planning a considerable diversion of resources to to provide essential support to individuals and communities.

You can find up to date information, guidance, and support from Manchester City Council at <https://secure.manchester.gov.uk/info/500361/coronavirus>

Working together in our community is more important than ever—even though we have to stay physically apart.
